

Management Accounting Information

This is the production of interim accounts at different times of the year. They measure the performance of the business thus far. Management accounts can be prepared monthly or quarterly and provide an up to date report on your profitability and current progress of your business. They give you an accurate report on your expenses and overheads and if compared to a budget let you know if you are performing as predicted or expected in your plans. Hence **NO MORE SURPRISES**. They very quickly draw your attention to areas that are under performing and allow you to react quickly to stop the rot.

How does it work?

The service offered by Beech means you are given your own account manager who will be your first port of call. They are responsible for building a long term relationship and ensuring you receive an excellent service. Your account manager will visit you and your premises to get to know your business, understand your plans and coordinate these with your goals. A plan is formulated within your budget to deliver the required level of information, to allow you to make accurate and timely decisions.

We then work with your existing staff to pull all your systems together, this may involve us training some staff in the new procedures but with the object of getting the business its accounting information in a timely fashion. New reconciliations and checks of balances will ensure the information is accurate. With one of our specialist on site you will have confidence you have control of your business.

Who needs it?

Ever thought at the year end , I was sure we made more money than that, or I didn't think the tax bill was going to be that high,? Yes, it very common it means that something happened in the year you were unaware of. To stop this happening you need **MORE** information **MORE** OFTEN.

Tighter controls need not mean greater costs, they can **SAVE** money.

You will gain confidence in the new control you have of your business.

The benefits.

Good accurate information to give to lenders .

Make confident, calculated decisions that save your business money.

Your decisions will be timely again saving money

Your business confidence will increase knowing you are not treading in the darkness.

No more surprises.

What to do next

You can arrange a no obligation chat with one of our account managers. We will discuss your problems and your requirements. We will then return with a solution to discuss.
